

Marcos Enriquez

Welcome to AP Art students! I wish you all the best of luck in this 2011-2012 year. I hope all of you got your summer assignment done, if not you are in big trouble because in this class you have no time to waste. Wasting time will result in you doing a lot of work in a small span of time and you will fail this class. But I don't need to scare you about how hard this class is, because it is really not. If anything you should enjoy this class. Be creative when you draw or paint, do not be afraid to show your style of art. Some student in this class might seem like they are extraordinary artist, and they might be, but that is only because they have practiced their style of art for some time now. Another thing to consider is your participation in class, it is very important to speak during a critique. Critique points are easy to get, but if you do not get those point they will hurt your grade very much. One last thing I can tell you is that do not mess around in this class, enjoy everything about it because at the end you will want to do it all over again. This class will have its ups and downs but it will all be worth it.

Sincerely, Marcos Enriquez
